CHAPTER 13

2020 JAN -3 PM 5:15

U.S. BANKRUPTCY
DISTRICT OF SOUTH CAROLINA

OBJECTION TO ALLY'S PROOF OF CLAIM

I, Michelle Hodges, the Debtor hereby object to the proof of claim submitted by Ally, as Ally does not hold an allowable claim under 11 USC 502 that is not being objected to.

1. The Creditor's claim is unenforceable, as the sales contract was fraudulent, as it indicated that I was purchasing a new car. When in fact I was purchasing a car that had been previously totaled by an insurance company.
2. In December of 2016 I purchased the KIA Forte from KIA of Greenville and in January of 2017, I lost my job and I happened to be near KIA of Greer and I went in to see what my options would be and I received a report that my car had been totaled prior to my purchase.
3. I was devastated, I called KIA of Greenville and when I finally got in touch with the manager, he was not helpful at all and was in fact rude. I called Ally to find out if they knew about this, they said no. I called the DMV, they stated they did not give out that information and suggested I call the lender. I called Ally back and requested a copy of the title.
4. The title I received showed minimal information and nothing about any accidents. I called my insurance company and they stated they did not know. I called the insurance company that was listed on the report, they never would answer the phone.

5. I found the name of owner of KIA of Greenville online at the Better Business Bureau website and left a message for Mr. Bob Hogan and he called back and I explained to him my purchase of the car and that I had gone into KIA of Greer and received a report that that the car had been totaled.
6. I explained that the report showed no accidents and then on the last page, it shows totaled. He stated that he would have this checked out and we set up an appointment for 1/31/19, to meet at KIA of Greer. At the appointment, Mr. Hogan He was very nice and he advised me that the car definitely had not been totaled, as he had pulled another report
7. He stated, however, he did find out from the dealership that the car was in a minor accident and because the minor accident happened when the dealership had the car it would not show up on the report.
8. He further, stated that he would be willing to pay me for the minor accident since it was not disclosed to me, prior to purchase and further emphasized that the car definitely had not been totaled.
9. At the appointment he gave me a copy of the repair bill for the minor accident, a check for \$3406.00 and stated that he would provide me with free oil changes and would provide me with a loaner car to drive, so that he could have the KIA thoroughly checked out and a new report that shows that there were no accidents to the car.
10. I questioned again the new report not showing any accidents, he stated that sometimes the information is not put into the system correctly and can cause a report with incorrect information.

11. I stated that the vin number was correct and he stated that he just could not explain why that printed that way and the new report shows that the car was not totaled and that he had given me a check for the minor accident and has apologized.
12. After I got home, I realized that I did not have the new report and I called him back and he stated no problem, they will have one ready for me when I pick up the car. I picked up my car and the report on 2/3/17.
13. When my Daughter decided that she no longer could pay for the Nissan, I decided that I would sell both cars and get a new one.
14. I took the Nissan to CarMax, where I purchased it and had it appraised and found out that the value of the Nissan was less than the loan, so I wouldn't get any money from the sale of the Nissan.
15. So, the next day I took the KIA for an appraisal and found out that not only was the value less than the loan, but I received a National report that showed that the KIA had in fact been totaled prior to my purchase.
16. This confirmed in my mind that Mr. Hogan and KIA of Greenville were in fact aware that the car had been totaled and this is why he made so many offers.
17. I have been devastated and have a couple of messages for Mr. Hogan, and called the insurance company showing on the report and
18. I lost money that I put into the car and punitive damages are in order.

ATTACHMENTS

- a. Copy of report I was given by Mr. Hogan, showing no accidents

- b. Copy of the National Report I received from CarMax.
- c. Copy of Minor Accident report.

Respectfully submitted,

NMVTIS Consumer Access Product Disclaimer

The National Motor Vehicle Title Information System (NMVTIS) is an electronic system that contains information on certain automobiles titled in the United States. NMVTIS is intended to serve as a reliable source of title and brand history for automobiles, but it does not contain detailed information regarding a vehicle's repair history.

All states, insurance companies, and junk and salvage yards are required by federal law to regularly report information to NMVTIS. However, NMVTIS does not contain information on all motor vehicles in the United States because some states are not yet providing their vehicle data to the system. Currently, the data provided to NMVTIS by states is provided in a variety of time frames; while some states report and update NMVTIS data in "real-time" (as title transactions occur), other states send updates less frequently, such as once every 24 hours or within a period of days.

Information on previous, significant vehicle damage may not be included in the system if the vehicle was never determined by an insurance company (or other appropriate entity) to be a "total loss" or branded by a state titling agency. Conversely, an insurance carrier may be required to report a "total loss" even if the vehicle's titling-state has not determined the vehicle to be "salvage" or "junk."

A vehicle history report is NOT a substitute for an independent vehicle inspection. Before making a decision to purchase a vehicle, consumers are **strongly encouraged to also obtain an independent vehicle inspection** to ensure the vehicle does not have hidden damage. The **Approved NMVTIS Data Providers** (look for the NMVTIS logo) can include vehicle condition data from sources other than NMVTIS.

NMVTIS data **INCLUDES** (as available by those entities required to report to the System):

- Information from participating state motor vehicle titling agencies.
- Information on automobiles, buses, trucks, motorcycles, recreational vehicles, motor homes, and tractors. NMVTIS may not currently include commercial vehicles if those vehicles are not included in a state's primary database for title records (in some states, those vehicles are managed by a separate state agency), although these records may be added at a later time.
- Information on "brands" applied to vehicles provided by participating state motor vehicle titling agencies. Brand types and definitions vary by state, but may provide useful information about the condition or prior use of the vehicle.
- Most recent odometer reading in the state's title record.
- Information from insurance companies, and auto recyclers, including junk and salvage yards, that is required by law to be reported to the system, beginning March 31, 2009. This information will include if the vehicle was determined to be a "total loss" by an insurance carrier.
- Information from junk and salvage yards receiving a "cash for clunker" vehicle traded-in under the Consumer Assistance to Recycle and Save Act of 2009 (CARS) Program.

Consumers are advised to visit www.vehiclehistory.gov for details on how to interpret the information in the system and understand the meaning of various labels applied to vehicles by the participating state motor vehicle titling agencies.
